Why Sponsor Django Chat?

The podcast was started in February by Will Vincent and Carlton Gibson. Will is the author of [several books](#) on Django, co-writes the [Django News](#) newsletter, and is a former Board Member of the [Django Software Foundation](#). Carlton served as a [Django Fellow](#) for five years and maintains a number of key packages in the Django ecosystem including Django REST Framework, Django Filter, Django Crispy Forms, Channels/Daphne/Channel Redis, and many more.

Traffic (as of October 2024)

- 180+ episodes that come out every two weeks, with a pause over the summer
- 700,000+ downloads
- average episode downloaded 2,000 times in the first week
- our audience is primarily in the USA and Europe with a long-tail of global listeners

Sponsorship Pricing

There is only one sponsor per episode who receives mention in the pre-roll, mid-roll, and out-roll along with prominent placement in the show notes.

- Single Episode: \$250
- Five Episode Package: \$1,000 (20% discount)

Reviews

We have a near-perfect 4.9 star rating. Check out our ratings and more reviews at [Chartable](#).

Important podcast in this space ☆ ☆ ☆ ☆ ☆

As a professional Django developer, I am so glad this podcast exists. Django is a great framework with a rich ecosystem and it's used by some of the biggest and most important companies in the world. It's only fitting that the hosts, a Django educator and Django fellow, would be the ones to bring us the ideas, people, and news important to those of us in this space. The podcast is informative and entertaining!

Everything interesting in Django ☆ ☆ ☆ ☆ ☆

One of the few podcasts I make a point of not missing!

So amazing!! ☆ ☆ ☆ ☆ ☆

I have been trying to learn how to make a website with Django and this podcast has been entertaining and helpful.

Informative, engaging, and insightful ☆ ☆ ☆ ☆ ☆

Will and Carlton, along with their incredibly knowledgeable guests, deliver nothing but value in each and every episode.

Fantastic ☆ ☆ ☆ ☆ ☆

I'm an iOS dev trying to cobble together my own DRF backend and this podcast has been vital to me. It's so helpful to hear about these topics in a conversational format.
